

**HEFAT2011**  
*Mauritius*  
**11 - 13 July 2011**

Conference website: <http://www.hefat.net>

### **8th International Conference on Heat Transfer, Fluid Mechanics and Thermodynamics**

After an enthusiastic response to the seven past HEFAT conferences held in 2002 (Kruger National Park, South Africa), 2003 (Victoria Falls, Zambia), 2004 (Cape Town, South Africa), 2005 (Cairo, Egypt), 2007 (Sun City, South Africa), 2008 (Pretoria, South Africa), and 2010 (Antalya, Turkey), we are pleased to announce that the **8th International Conference on Heat Transfer, Fluid Mechanics and Heat Transfer** will be held in Mauritius, from **11 to 13 July 2011**. The focus of this conference is to provide a forum for specialists in heat transfer, fluid mechanics and thermodynamics from all corners of the globe to present the latest progress and developments in the field. This will not only allow the dissemination of the state of the art, but it will serve as a catalyst for discussions on future directions and priorities in the areas of heat transfer, fluid mechanics and thermodynamics. The additional purpose of this conference is to initiate collaboration in research.

### **Important Dates**

- 15 February 2011 Deadline for submission of online abstracts and full papers
- 31 March 2011 Notification of acceptance of full papers (for authors whose papers were received on time)
- 15 April 2011 Deadline for submission of final or revised paper
- 15 April 2011 Deadline for registration

## Submission

Prospective authors are kindly invited to submit full text papers including tables, figures and references. Full text papers (pdf only) will be accepted by the online submission system. All submitted articles should report original, previously unpublished research results, experimental or theoretical. Articles submitted to the Conference should meet these criteria and must not be under consideration for publication elsewhere. Manuscripts should follow the style of the Conference and are subject to both review and editing.

To submit an abstract/paper to HEFAT2011, please follow the following steps:

1. Please register an ID with your profile and email address by logging in at <http://edas.info/N9563>
2. Choose a track.
3. Input the title of the paper in the block and use the format: The Heat Transfer in the Transitional Flow Regime of Enhanced Tubes (note the Capital Letters of the first letter of every word).
4. Type in the abstract (first type it in Word and please check your spelling and then copy and paste it into this block). This abstract is going to be used in the Conference Abstract Book so please make sure it is correct (especially after submitting the final paper). The abstract is limited to 1000 words and should include the background, problem, purpose of study, methodology and most important results and conclusions.
5. Then select the topic area(s) your paper falls under best.
6. Click the Submit button.
7. On the next page a large green check mark and a statement that the abstract was registered will show.
8. The icon of a yellow folder found at the last row is where the manuscript will be uploaded after the abstract has been accepted. Please click on this icon and then upload your paper.
9. Once you have registered an abstract and uploaded the manuscript, an email is sent to your registered email address indicating the status of your submitting process.

## Full-length manuscript

The **format** in the template should be used for the full-length manuscript. [Download the template](#). The full-length manuscripts **MUST** be submitted as a PDF file and should be limited to a maximum length of **ten (10) pages**.
