Call for Paper

The indiscriminate and uncontrolled use of fossil fuels from past to present, especially since the dawn of modern civilization, has raised an environmental pollution, emissions of CO₂ and also finally caused to global warming. To prevent all these bad situations, the new alternative technologies, energy efficiency and management have become extremely important within effective developing policies. "International Ege Energy Symposium and Exhibition" (IEESE) will serve as a bridge for people around the world to share their work in this field.

The Ege Energy Symposium and Exhibition has been held every 2 year by the collaboration of fourteen regional universities since 2003. Until 2010, this symposium was national, but it has been transformed to an international scientific organization that provides an excellent opportunity for discussion and knowledge exchange for scientists, policy-makers, engineers and other specialists with an interest in issues related to energy.

The 6th IEESE, organized by the Ege University and hosted by the Solar Energy Institute and Mechanical Engineering Department, will be held on June 28 – 30, 2012 at Ege University in İzmir, Turkey. The symposium will be an international forum for the participants to address and discuss the state of the art innovation in energy and energy systems. The symposium will feature sessions, panels and tutorials by international experts on energy.

The Symposium Organizing Committee invites researchers and practitioners worldwide to submit papers for review and possible presentation. The symposium scope covers a wide area of topics with respect to energy as followed. Our Committees have the pleasure to invite and welcome you to participate in our exciting symposium.

Previous IEESE

"2003 I. Ege Energy Symposium and Exhibition" Denizli Pamukkale University

"2004 "II. National Ege Energy Symposium and Exhibition" Kütahya Dumlupınar University

"2006 "III. National Ege Energy Symposium and Exhibition" Muğla Muğla University

"2008 "IV. National Ege Energy Symposium and Exhibition" İzmir Ege University

"2010 "V. International Ege Energy Symposium and Exhibition" Denizli Pamukkale University
