Call for Papers

As part of I3M'2012 (<http://www.msc-les.org/conf/i3m2012/>), IMAACA 2012 will be held jointly with the international conferences EMSS, MAS and HMS 2011 and the DHSS, IWISH, MISS and M&SNet Workshops. For news about the conference please visit periodically its website: <http://www.msc-les.org/conf/imaaca2012/>.

Objectives and Scope

IMAACA 2012 will bring experts together for the purpose of presenting and discussing all type of *application relevant control and automation problems* emphasizing the role of model analysis as integral part of the complete design of the automated system. Particularly, it will focus on new concepts, methods, techniques, and tools conceived in order to support an integrative interplay of modeling, identification, simulation, system analysis and control theory in all the stages of system design.

Topics

Continuous and Hybrid Systems, Lumped and Distributed Parameter Systems, Switched Systems, Qualitative Modeling, Bond Graph Modeling, Mathematical Modeling and Numerical Methods, Neural Networks, Fuzzy Systems, Nonlinear Systems, Large Scale Systems, Order Reduction and Model Simplification, System Identification, Adaptive Control, Expert Systems, Industrial Applications of Advanced Control, Intelligent Control, Multivariable Control, Nonlinear Control, Robust Control, Networked Control Systems, Fault Detection, Process Supervision, Software and Tools, CAD, Education.

Application Areas

Aero and Astro, Agroindustries, Automation, Biomechanics, Prosthetics and Biomedical Engineering, Car Industry, Chemical Engineering and Process Control, Electrical and Power Systems, Environmental Systems, Food Industry, Integrated Manufacturing, Marine and Off-Shore Control, Mechatronics, Production Industry, Power Electronic Systems, Robotics & Mechanical Systems, Textile Industry, Transportation Systems.

Submission Site

Paper Submissions: Only original papers written in English will be considered on the basis of a **full paper revision** by at least two members of the IPC. All submissions are to be made electronically through the conference submission website, which will soon be available.
