

**ICGST International Conference on Recent Advances in Energy and Power Systems, RAEPS,**

**Alexandria, Egypt, 3-5 April 2012**

<http://www.icgst.com/con12/raeps/index.html>

ICGST International conference on Recent Advances in Energy Systems, RAEPS, emphasizes on recent trends of research and development and provides a central forum for scientists, researchers, engineers and vendors from different disciplines to exchange ideas, identify problems, investigate relevant issues, share common interests, explore new approaches, and initiate possible collaborative research and system development. The RAEPS significantly benefits a wide variety of academic and industrial sectors

For more details, please, visit: <http://www.icgst.com/con12/raeps/index.html>

Conference major topics:

Solar energy systems  
Wind energy systems  
Petroleum based energy and power systems  
Hybrid power systems  
Energy efficiency  
Renewable energy  
Fossil energy  
Nuclear energy  
Clean and environmental energy  
Geothermal energy  
Sea waves and tidal energy  
Hydroelectric power  
Hydrogen energy and fuel cells  
Biofuel technology  
Innovative energy solution for automotive industry  
Electric, gas, biofuel, hybrid and hydrogen based engines  
Power systems design, analysis and control  
Greenhouse research

Strategic questions about energy systems:

Will the natural resources of energy run out?  
What will replace fossil fuel in the near/far future?  
What do you know about holistic energy content of the universe?  
Is the conversion from mass to energy possible?!!!!!!  
Could the relativity theory solve the energy crisis of the world?  
What is the future of fusion energy?  
Are the renewal resources financially efficient?  
How do you see the nuclear facilities after Fukushima disaster in Japan?  
What about the biofuel solution and world food crisis?  
What are the new trends of the energy storage systems?  
What is future of the green systems?  
How do you see the war on oil?

### **Important dates:**

- Submission deadline: 5 November 2011
- Registration and notification: 5 December 2011
- Registration Deadline: 5 February 2012
- Review: 10 January 2012
- Final version: 2 February 2012
- Program: 3 March 2012
- Conference Opening: 3 April 2012

### **Submission:**

- [Register](#) if you don't have an account on AMC
- [Login](#) to your account on AMC
- Submit your paper via [REAPS direct submit](#)
- By email to [editor@icgst.com](mailto:editor@icgst.com) if you failed to submit it via AMC
