

2nd

SOUTH EAST EUROPEAN CONFERENCE
ON SUSTAINABLE DEVELOPMENT OF ENERGY,
WATER AND ENVIRONMENT SYSTEMS

**2nd SEE
sdewes
Conference
Piran
2016**

June 15-18, 2016
Piran, Slovenia

<http://www.piran2016.sdewes.org/>

SCOPE

The main challenge for South East Europe (SEE) economies is to commit to, and sustain the implementation of, long-term reforms aimed at increasing competitiveness and promoting sustainable, inclusive and balanced development, as well as better integration between the EU Member States, candidate and potential candidate countries and neighbouring countries. An adequate response to this challenge will certainly require using the best available scientific knowledge and constant re-evaluation of the development process in light of the scientific findings. Therefore, it will be essential to enhance the scientific understanding, improve the long-term scientific assessments, strengthen the scientific capacities and ensure that the sciences are responsive to the emerging needs.

Along this line, a regional series of biannual Sustainable Development of Energy Water and Environment Systems (SDEWES) conferences have been initiated to provide a venue for the researchers from the SEE region, but also for world-wide researchers and specialists and those interested in learning about the sustainability of development, to present research progress and to discuss the state of the art, the future directions and priorities in the various areas of sustainable development and regional integration.

CALL FOR PAPERS

Types of papers sought

The papers must report original, previously unpublished findings in the fields of sustainable development of energy, transport, water, food and environment systems, their integration, their technical, environmental, economic and social perspectives. All papers will be reviewed under the direction of the International Scientific Committee by the Scientific Advisory Board. The abstracts and papers must be written in English. The papers with archival value (archival papers), meaning those that contribute significantly to the state of the art and report final results of research, with proper literature review, will be thoroughly reviewed and will be candidates for publication consideration in special issues of several archival journals. The papers that report work in progress without significant contribution to the state of the art, and those lacking a thorough literature review, are invited as conference papers, and will receive less stringent review. Authors are invited to offer suggestion on classification of their papers as "archival" or "conference", when submitting them.

Authors (corresponding author) willing to present a paper should submit an abstract in English, between 1500-2500 characters long.

DATES

Abstract deadline (archival)	December 15, 2015
Reduced fee request	January 15, 2016
Archival full paper	January 31, 2016
Abstract deadline (conference)	February 29, 2016
Fees due - archival papers, reduced fee	February 29, 2016
Fees due - membership waiver	March 15, 2016
Visa requests and fee settlement	March 31, 2016
Full fee for conference papers	May 20, 2016
Conference full paper	May 30, 2016
Corporate fee deadline	June 3, 2016
Draft online digital proceedings	June 8, 2016
The Conference	June 15-18, 2016
Final online digital proceedings	July 14, 2016
Submission of papers to special issues	depending on the journal
